Williams Lake, BC

Please come and enjoy a wide range of topics and speakers with a common goal of improving your ranching operation.

- New aspects in beef nutrition and mineral supplements to improve herd health and beef production.
Speaker: Kris Wierenga (Viterra Feed Nutritionist), Viterra Feeds
- Discover the basic principles of proper irrigation techniques to maximize forage production in the BC interior. Learn about government resources to assist with your operations.
Speaker: Andrew Petersen (Regional Resource Specialist), Ministry of Agriculture
- Learn about new irrigation systems and technologies available to improve your forage production. Discussion on irrigation system cost comparisons.
Speaker: Dick Ford (Highlands Irrigation), Highlands Irrigation Ltd.
- Improve your range and pasture production through aerial helicopter noxious weed control programs. Learn about the new range and pasture herbicide products and the 2012 rebate programs available in BC.
Speaker: Robson Rogan (Professional Agrologist), Purity Feed Ltd.
Lisa Jarrett (Technical Representative), Dow AgroSciences
- Discover and learn about the Cariboo Regional Districts (CRD) noxious weed programs for 2012.
Speaker: Emily Sonntag (CRD Regional Manager), Cariboo Regional District.
